

EMS SOLDA MIX

SOLDER PASTE SOFTNER

-  Solder paste preparation in 5-15 minutes
-  Adjustable counter balance
-  Analog time setting

EMS TECHNOLOGIES PVT. LTD.

An Indo-Japanese Jt. Venture of ELECTRONICA and MINAMI

EMS SOLDAMIX is a smart aid for preparation of SOLDER PASTE before printing without opening the solder paste container lid, thus assuring no humidity absorption or contamination.

The solder paste containers are loaded into the bowls of the **EMS SOLDAMIX** and electronics timer is set, after pressing "Start" button the motor drives the mechanism for set time and the solder paste gets homogeneously churned due to the sun-planetary motion of the containers. The strong kneading power gives you "ready to use" uniformly mixed paste at room temperature in a short time of 5-15 minutes.

The timing of mixing can be set by an Electronic Timer

The machine has "Cover Interlock" and "Emergency Stop" for added safety.

Balancing Weights

SPECIFICATIONS:

- **Mixed Method** : By Sun-Planetary motion of bowls.
- **Timer** : Electronic timer settable from 6 sec. to 250 minutes
- **Temperature Rise** : 4^o to 28^oC in 10-15 minutes
- **Paste Jar Sizes** : Universal Adapter can take 500gm or 1000gm jars
- **Balancing** : By two solder jars at both ends or dummy weight at one end.
- **Safety Features** : ● Door Micro Switch ● Emergency off
- **Power** : 240V AC single phase 50/60 Hz. 100 W.
- **Machines Weight** : 40 Kgs.
- **Machine Size** : 480 (L) x 480 (W) x 465 (H) mm

* The Specifications in this catalogue are subject to change without prior notice.

**Universal adapters for
500/1000 gms jars.**

**Rotating Arm Giving
Sun Planetary Motion**

**Control Panel
with Timer**
